

Company Profile

Oxalis – the finest in tea and coffee

Who we are

A major importer, blender, wholesaler and exporter of the finest teas and coffees, Oxalis also sells an impressive range of related accessories to our own designs.

By creating blends upon request, we provide clients with precisely the products they desire. One increasingly important area is our organic and fair-trade range.

A brief history

Oxalis was set up in 1993 and, thanks to our professional approach and the quality of products, we have become the market leader in the Czech Republic for loose teas and coffees.

We constantly strive to innovate and create new beverages to meet consumer expectations and changing tastes. We now offer a range of drinks that should quench the thirst of all tea drinkers, no matter what their preferred blend. Our wide range covers everyday, traditional and speciality teas, as well as fruit and herbal infusions that are sure to delight the taste buds.

We import loose teas directly from all of the premier tea gardens in the world. By doing so, we make sure that only teas of the finest quality and most favourable prices reach our customers.

We run our own research laboratory, in which we permanently develop innovative mixtures and flavoured blends unique to us. For our flavoured teas, we use natural and nature-identical flavourings, which we stock in a wide variety and that are manufactured by the world's most important producers.

Nowadays, Oxalis produces more than 400 types of fine loose teas, both pure and flavoured. Furthermore, we sell more than 20 varieties of 100% pure Arabica plantation coffee, and equal that number in flavoured coffees.

Apart from selling tea and coffee, we are proud to offer a wide array of related accessories. A great number of these are manufactured to our own designs, making them unique to us. These are labelled with an Oxalis Design logo.

In addition, a great selection of gift packs are available, with the possibility of creating customised ones to order.

Doing business worldwide

The company began to establish a network of retail outlets in 1994, which have garnered a reputation for selling a wide range of fine loose teas, coffees, and accessories. Currently, we run 20 shops situated at the most frequented places throughout the Czech Republic, featuring our very own method of sale – tea from glass jars and coffee from coffee dispensers. This way of selling goods has proved so successful that most of our franchise and partner outlets at home and abroad have adopted the same system.

Moreover, we supply tea and coffee to more than 600 customers in the Czech Republic, in addition to exporting to EU countries and worldwide. Presently, our beverages can be enjoyed in more than 17 countries across the globe, including Canada, the Canary Islands, Finland, Russia, Ukraine, Poland, Slovakia, Hungary, Italy, Ireland, the United Kingdom, the Baltic States and others.

Quality assured

To ensure the best services to its customers, Oxalis has recently implemented the ISO 9001 quality system and HACCP standards. Furthermore, we are members of the SCAE coffee association and the PRO-BIO association of ecological food-stuffs producers.
